Subject: Weekly Notice of Projected RI Activities for the
Ruetgers-Nease, State College, Pennsylvania RI/FS.

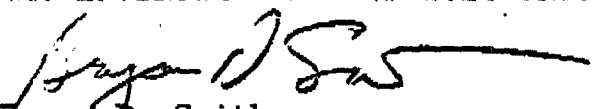

Dear Mr. Byro:

This letter serves to notify USEPA of projected RI activities for the week of November 11-15, 1991 for the Ruetgers-Nease, State College, PA RI/FS. During this week, we anticipate continuing work on the installation of monitoring well MW-39D and initiation of the installation of MW-37S and MW-38D if access is granted by Mr. Abramson. SMC is also prepared to initiate collection of either surface water/sediment samples or surface soil samples if EPA's oversight contractor can make the necessary arrangements with its laboratory.

Please feel free to contact us if you should have any questions regarding these projected activities.

Very truly yours,

SMC ENVIRONMENTAL SERVICES GROUP

Bryan D. Smith
RI/FS Site Manager
